- PLM migration to Aras Innovator with OpenPDM;

- More secure data exchange with OpenDXM GlobalX, either fully integrated into Aras Innovator or directly from Microsoft Outlook or Windows Explorer;

- Aras Innovator implementation and integration services.

WE PROVIDE **UNBIASED,EXPERT ADVICE**

- PLM system benchmarking and PLM system selection;

- PLM process consulting and support of digital transformation and Industry 4.0 initiatives;

- Complexity management consulting;

- Establishing innovative variant management;

- Developing solutions for effective know-how and intellectual property protection.

EXPAND ARAS INNOVATOR and
CONNECT YOUR ENTERPRISE DIGITAL THREAD

PROSTEP Supports ARAS SOLUTIONS

- **INTEGRATION -** Do you need a systems integration solution for your ARAS products? With PROSTEP, you get a bi- directional exchange of data including parts, BOM, CAD, documents, changes, configuration and more.
- **MIGRATION -** Need to decommission your system while consolidating data in ARAS INNOVATOR? PROSTEP solutions migrate data in a variety of use cases.
- **FEDERATION -** Keep systems up-to-date across your enterprise with intelligent, traceable links that give you real time access to data managed elsewhere.
- **COLLABORATION -** Optimize and streamline product development processes with automatic collaboration between the many different PLM and CAD systems of your customers and suppliers.

Your ARAS Systems Integration Partner

Since 2015, PROSTEP has been an ARAS System Integration Partner. As a premier partner, we combine our methodologies, development skills and specialized vertical expertise to deliver ARAS-based services and solutions to our joint customers.

PROSTEP is an Independent Software Vendor (ISV). We make and sell software that runs on/with ARAS Innovator.
